

Digital Assignment -1
CSE4015 – Human computer interaction
Winter sem 21-22

(Deadline for submission: 7/2/22)

Max Marks:10

Draw the following neatly

1. use case diagram,
2. data flow diagram,
3. activity chart and
4. timeline chart

for the project you propose to do in the jth component. Describe and highlight how the project you propose to develop in the jth component provides better human computer interaction.

Note: In each team, the modules of the project have to be equally divided among the team members so that each team member presents the content relevant to the modules he/she has been assigned. The first page of the DA, should contain the details relevant to how the modules have been equally divided among the team members. All students in the class should submit DA and there should not be any overlap in the contents submitted. (Course Outcomes :2,3)

Rubrics for evaluating Digital Assignment-1 (10)		
	1-Satisfactory	2-Good
Correlation: Does the content correlate with the assignment question?		
Coverage: Does the content cover all the points mentioned in the assessment question?		
Originality: Is the content original and plagiarism free?		
Accuracy: Is the content accurate and error free?		
Overall content assessment: Presentation, readability and clarity of the content
